

CAUTION—IF YOU HAVE YOUR JOURNALS BOUND, note that the following 1988 author/subject index contains a substantial number of items referenced to the "A-" pages which always precede the serially numbered main scientific content of each issue, and which succeed the scientific pages. These references cite information of value which, by format, does not lend itself to inclusion in the main portion of the issue.

When binding a year's collection of JOURNALS, it is common practice to strip off and discard the "A-" portions of each copy. **HOWEVER, BEFORE DISCARDING 1988 "A-" PAGES—CHECK THEIR CONTENT**, either by scanning the index and retaining cited pages, or reviewing each issue and retaining those "A-" pages which may be of future value. Copies of any "A-" pages previously discarded and now needed can be obtained from University Microfilms, Intl. Complete address and telephone number information is listed on the table of contents page of this or any issue of the JOURNAL.

1988 Authors Index

A

ABDELGHANI, A.A.: An Investigation of Reentrainment of Chemical Fume Hood Exhaust Air in a Heat Recovery Unit	61
ABDEL-RAHMAN, M.S.: Soil Adsorption Alters Bioavailability of Benzene in Dermal Exposed Male Rats	506
AINSLIE, Maureen: Airborne Endotoxin Associated with Industrial-Scale Production of Protein Products in Gram-Negative Bacteria	420
AINSWORTH, D.: Pulmonary Function of Guinea Pigs Exposed to Freshly Generated Ultrafine Zinc Oxide with and without Spike Concentrations	333
AKIYAMA, Takashi: A New Generator of Multicomponent Organic Solvent Vapors for Laboratory Use	1
AMOUR, M.O.: Copper Oxide Aerosol: Generation and Characterization	271
Pulmonary Function of Guinea Pigs Exposed to Freshly Generated Ultrafine Zinc Oxide with and without Spike Concentrations	333
ANCKER, Klas: A Simple Method of Estimating Air Recirculation in Ventilation Systems	66
ANDERSEN, Birte Høgh: The Affinities of Organic Solvents in Biological Systems	301
ANDERSON, A.C.: An Investigation of Reentrainment of Chemical Fume Hood Exhaust Air in a Heat Recovery Unit	61
ANDERSON, C. Clarine: A Sampling and Analytical Method for Airborne m-Phenylenediamine (MPDA) and 4,4'-Methylenedianiline (MDA)	531
ANZION, R.B.M.: Effects of Psychophysical Lifting Training on Maximal Repetitive Lifting Capacity	600
ARAI, Douglas K.: Determination by Atomic Spectrometry of Chromium on Air Sampling Filters in the Presence of Iron	207
ARMSTRONG, B.G.: Occupational and Residential 60-Hz Electromagnetic Fields and High-Frequency Electric Transients: Exposure Assessment Using a New Dosimeter	409
ARMSTRONG, C.G.: Psychometric Limits to Prolonged Work in Protective Clothing Ensembles	390
ASFOUR, Shihab S.: Physiological Guidelines for the Design of Manual Lifting and Lowering Tasks: The State of the Art	150
ATTIYAT, Abdulrahman S.: Flame Atomic Absorption Determination of Manganese in Whole Blood Using Solvent Extraction into Acetone	244
AVOL, E.L.: Laboratory Study of Asthmatic Volunteers Exposed to Nitrogen Dioxide and to Ambient Air Pollution	143

B

BAKER, Donald G.: Radiology, Is There An Occupational Hazard?	17
BARRETT, Thomas: Subjective Tolerance of Respirator Loads and Its Relationship to Physiological Effects	108
BEALL, James R.: Science in the Lion's Den	A-784
BECKMAN, R.J.: Using Immersion Test Data to Screen Chemical Protective Clothing	579
BELLANCA, Joseph J.: When All Else Fails, Try Communication	A-692
BELOSI, F.: PERSPEC: A Personal Sampler with Size Characterization Capabilities	75
BERARDINELLI, S.P.: Using Immersion Test Data to Screen Chemical Protective Clothing	579
Chemical Protective Clothing Standard Test Method Development: Part I. Penetration Test Method	21
Chemical Protective Clothing Standard Test Method Development: Part II. Degradation Test Method	26
BERARDINELLI, Stephen P.: Chemical Protective Clothing Breakthrough Time: Comparison of Several Test Systems	89
BERNI, R.J.: Analysis of Epiphytic Bacteria and Endotoxin during Cotton Plant Maturation	539
BERNI, Ralph J.: 3-Hydroxymyristic Acid as a Measure of Endotoxin in Cotton Lint and Dust	81
BERODE, M.: Biological Monitoring of Styrene: A Review	497
BETTINGER, Nancy: Markers of Exposure to Diesel Exhaust and Cigarette Smoke in Railroad Workers	516
BIGU, J.: Effectiveness of a Wet Scrubber in Reducing Radioactive Aerosol and Dust Concentrations in Underground Uranium Mines	572
Long-Lived Alpha-Particle Activity in Dust Samples from Hard-Rock Uranium Mines	566
Evaluation of a Water-Type Dust Collector at an Underground Crushing Operation	101
BISHOP, Richard W.: A Field Evaluation of Air Sampling Methods for TNT and RDX	635
BJURSTRÖM, Rasmus: A Simple Method of Estimating Air Recirculation in Ventilation Systems	66
BOLTON, Newell E.: Risk Management Today	698
BOOHER, Lindsay E.: Lead Exposure in a Ship Overhaul Facility during Paint Removal	121
BOS, Robert P.: Effects of Psychophysical Lifting Training on Maximal Repetitive Lifting Capacity	600
BRACONNIER, Robert: Bibliographic Review of Velocity Fields in the Vicinity of Local Exhaust Hood Openings	185
BREYSSE, Patrick: Effects of Adsorbed Water Vapor on the Adsorption Rate Constant and the Kinetic Adsorption Capacity of the Wheeler Kinetic Model	461

1988 Subject Index

A

ABET, Accreditation Board for Engineering and Technology	A-688
absorbed mass rates, evaluating by pharmacokinetic models	213
academic programs, accreditation of	A-688
accreditation, of academic programs	A-688
acetone, workload vs. uptake	546
actinolite, OSHA regulations	A-320
activated carbon, desorption of solvents	91
adsorption capacity, of respirator cartridges	461
adsorptive capacity, of respirator cartridges	235
aerosol dispersion test, for lung function changes	357
aerosol exposure systems, nose-only for mice	128
whole-body for mice	128
aerosol photometer, modifying sensitivity of	396
aerosols, of copper oxide	271
penetration of filters	451
respirator fit test for	492
in respirator fit testing	613
agriculture workers, respirator face seal	280
AIDS, in health care industry	A-216
air-curtain exhaust, control of rubber milling	167
air pollution, effects on asthmatics	143
air quality, impact of smoking	A-154
air recirculation, method of estimating	66
air sampling, for antineoplastic drugs	58
direct collection	A-778
for fluorouracil	58
for methotrexate	58
with plastic bags	A-778
air supply, using heat wheels	61
air velocity, in flanged slot hood	226
Alice Hamilton, an industrial hygiene pioneer	A-306
alpha-particle activity, detmn. in mine dust	566
in uranium mine dust	566
aminolevulinic acid, urinary lead test	342
amosite asbestos, accuracy of analyses	351
amphiboles, OSHA regulations	A-320
anaerobic threshold, detmn. of fatigue limits	150
Andersen sampler, positive hole adjustment	A-88
Antabuse, also see disulfiram	
anthophyllite, OSHA regulations	A-320
antineoplastic drugs, air sampling for	58
hazards in handling	58
asbestos, analysis of amosite	351
applicable regulations	A-16
education and technical assistance	A-16
emergency response act	A-16
emission standards	A-16
in public buildings	A-304
asbestos aerosols, penetration of filters	451
asbestos exposure, from auto brake repair	A-12
asbestos fibers, quality control of counting	A-695
asbestos levels, before/after earthquake	A-87
asbestos standards, court ruling	A-214
asthmatics, effects of air pollution	143
effects of nitrogen dioxide	143
asthmatic subjects, sulfur dioxide sensitivity	38
atomic spectrometry, detmn. of chromium	207
Australia, industrial hygiene in	593
automobile, brake repair hazards	A-12

B

bacteria, in cotton plant growth	539
benzene, bioavailability in soil	506
urinary metabolites	506

benzene exposure, adsorbed in soil	506
dermal from soil	506
Bhopal incident, risk management for	A-698
bindery workers, noise exposures of	34
biological exposure index, from pharmacokinetics	445
from TLVs	445
biological monitoring, mandelic acid in urine	497
pulmonary ventilation	546
for styrene exposures	497
urinary phenylglyoxylic acid	497
of urinary thioethers	10
biological safety cabinets, decontamination of	277
biological systems, affinity of solvents	301
blood, toluene levels in	255
body burden, evaluating by pharmacokinetic models	213
boot washer, for hazardous waste sites	A-504
boundary surfaces, effect on exhaust inlets	177
brake repair, asbestos hazard from	A-12
breakthrough time, of chemical protective clothing	579
testing CPC	89
breath, detmn. chlorohydrocarbons in	319
bronchoconstriction, caused by sulfur dioxide	38
butyl rubber gloves, reconditioning of	386

C

calibration, of size selective sampler	248
cancer risk, of radiologists	17
carbon black workers, pulmonary function of	161
carbon dioxide, from poultry processing	624
carbon disulfide, effect on cholesterol synthesis	427
effect of phenobarbital with	427
carbonless copy paper, dermal effects from	117
mucousal effects from	117
carcinogen, TCDD exposure limit	466
carcinogens, monitoring for	314
cartridges, with mixed organic vapors	70
respirator adsorptivity	225
centerline velocities, of exhaust hoods	185
certification, CIH use under OSHA	A-145
charcoal tube, sampling ethylene oxide	237
chemical properties, related to toxic effects	A-314
chemical protective clothing, degradation	
testing of	21, 23
penetration testing of	21
permeation testing	89
predicting breakthrough time	579
screening tests of	579
chlorinated hydrocarbons, detmn. in breath	319
direct reading test	319
chlorophenols, TCDD in	466
cholesterol synthesis, effect of carbon disulfide	427
effect of phenobarbital	427
chromatography, detmn. of cyclophosphamide	314
detmn. of endotoxin	81
detmn. of ethambutol hydrochloride	620
detmn. of MDA	531
detmn. of MPDA	531
chromium, detmn. by atomic spectrometry	207
detmn. in presence of iron	207
chrysotile aerosols, penetration of filters	451
cigarette smoke, adjusting DEEL for	516
committees, of AIHA, listings	A-44
communication, risk	A-233
communications, effective skills for	A-692
computer, evaluation of permeation	293
computer bulletin board, for health and safety	137
computer designing, local exhaust inlets	49

computer modelling, inlet velocity contours	49
consultants, listing of	A-52
controls, by means of effective communications	A-692
copper oxide aerosols, characterization of	271
generation of	271
cost-benefit, of radiation protection	A-368
cotton, endotoxin vs. plant growth	539
cotton dust, endotoxin in	81
cotton lint, endotoxin in	81
court cases, aspects to consider	A-784
court ruling, on asbestos standard	A-214
CPC, also see chemical protective clothing	
Cummings Award, Lewis J. Cralley	479
cyclophosphamide, monitoring for	314

D

d-aminolevulinic acid, urinary lead test	342
decontamination, of biological safety cabinets	277
DEEI, diesel exhaust exposure index	516
degradation test, of protective clothing	23
dermal exposure, benzene in soil	506
fluorescent tracer for	438
measure for malathion	438
dermal irritation, from carbonless copy paper	117
desorption, of polar solvents	91
desorption modelling, adsorption isotherms in	91
1,2-dichloroethane, also see ethylene dichloride	
diesel exhaust exposure, adjusted index of	516
of railroad workers	516
diffusion coefficient, detmn. for passive samplers	266
diffusion samplers, also see passive samplers	
dimethylethylamine, exposure in foundries	630
disease notification, defeat of legislation	A-366
disulfiram, interaction with ethylene dichloride	10
dose assessment, of vapor exposures	380
drum filling, slot hood ventilation	367
dry ice, in poultry processing	624
dust, endotoxin in cotton	81
dust collector, evaluating water-type	101
dust collectors, efficiency in mines	101
efficiency for rock dust	101
dust control, in uranium mines	572
by wet scrubbers	572
dust sampler, CIP10 personal	286
respirable mass	286

E

<i>E. coli</i> , endotoxins from use of	420
earthquake, effect on asbestos level	A-87
EGDME, also see ethylene glycol dimethyl ether	
electromagnetic fields, dosimeter for	409
exposure at 60-Hz	409
high frequency exposures	409
electron microscopy, analysis for amosite	351
endotoxin, in cotton lint and dust	81
3-hydroxymyristic acid	81
endotoxin levels, vs. cotton plant growth	539
endotoxins, from gram-negative bacteria	420
industrial exposures	420
energy conservation, with heat wheels	61
environmental limits, for protective clothing	390
epidemiology, industrial legionnaires' disease	584
epiphytic bacteria, see endotoxin	
epoxy resins, monitoring MDA from	531
monitoring MPDA from	531
ethambutol hydrochloride, detmn. in air	620
ethylene dichloride, interaction with disulfiram	10
ethylene glycol dimethyl ether, also see EGDME	
permeation of gloves	386

ethylene oxide, charcoal tube sampling for	237
detmn. by gas chromatography	237
detmn. of short-term exposures	237
exhaust air, through heat wheels	61
exhaust air silencer, for pneumatic hammer	371
exhaust hoods, flanged slot velocities	226
velocity fields of	185
exhaust ventilation, computer design model	49
hi-velocity/low-volume	177
expert witness, aspects of	A-784
screening cases	A-784
exposure index, diesel exhaust	516
exposure limit, for TCDD	466
exposure limits, evaluating by	
pharmacokinetic models	213
in pharmaceutical industry	309
exposure systems, for mice to aerosols	128

F

facial hair, effect on respirator fit	199
in respiratory protection	A-233
facial measurements, of Arab and Asian workers	A-315
effect on respirator fit	A-315
fatigue limits, determination of	150
fiber counting, quality control of	A-695
fibrous aerosols, penetration of filters	451
filters, penetration by asbestos	451
filter sampler, size characterizing	75
filter samples, detmn. of chromium in	207
fire fighter's gear, physiologic stress from	523
fit testing, of respirators	485
flame spectrometry, detmn. of manganese	244
flanged slot hoods, 3-D velocity field model	226
fluorescent tracer, measure of dermal exposure	438
fluoropore filters, sampling for ethambutol	
hydrochloride	620
fluorouracil, air sampling for	58
detmn. of	58
formaldehyde, decontamination of biological	
safety cabinets	277
foundries, dimethylethylamine expos.	630
triethylamine exposures	630
fuel oil, H ₂ S in residual	205

G

generator, for multicomponent organic vapors	1
genetic risks, of radiologists	17
gloves, permeation characteristics	293
permeation by EGDME	386
reconditioning butyl rubber	386
Gore-Tex® lining, fire fighters turnout gear	523
gram-negative bacteria, endotoxins related to	420
vs. cotton plant growth	539
graphic modelling, local exhaust design by	49
guidelines, OSHA generic	A-146

H

hair, facial and respirator fit	199
Hamilton, Alice	A-306
hazardous waste sites, mobile boot-washer for	A-504
hazards, nonindustrial	137
health care, AIDS hazard in	A-216
health care workers, exposure to Ribavirin	A-13
health & safety, computer bulletin board	137
heat exchangers, also see heat wheels	
heat stress, work in fire fighters gear	523
heat wheels, contaminate reentrainment by	61
hepatic cholesterol, effect of carbon disulfide	427
effect of phenobarbital	427

herbicides, TCDD in	466
hexahydro-1,3,5-trinitro-1,3,5-triazine, see RDX	
hospitals, cyclophosphamide in	314
humidity, effects on respirator cartridges	325
hydrogen sulfide, in residual fuel oil	205
in tank vapor space	205
3-hydroxymyristic acid, in cotton lint and dust	81
measure of endotoxin	81
1-hydroxypyrene, in urine	600

I

immersion test, of chemical protective clothing	579
impermeable suits, limits of safe use	390
Indoor Air Quality Act, comments on	A-626
industrial hygiene, academic programs for	A-688
a viable profession	479
developments in Australia	593
program in Italy	A-373
inhalation chamber, performance evaluation	591
inhalation exposures, assessing potential of	380
iron fumes, detmn. of chromium in	207
isopropyl biphenyl, in carbonless copy paper	117
Italy, industrial hygiene program in	A-373

J

JXC charcoal, sampling for ethylene dioxide	237
---	-----

K

keratin, affinity for solvents	301
kinetic adsorption, capacity of respirator cartridges	461

L

laminated plastics, control of styrene vapors	6
lard, affinity for solvents	301
laser protective eyewear, burn-through time of	608
lead, aminolevulinic acid test	342
urinary test for	342
lead dryers, as marine paint additive	121
lead exposures, removing marine paint	121
in ship overhaul	121
leakage, of respirator face seal	280
legal processes, the expert witness	A-784
legionnaires' disease, decontamination methods	584
in working environment	584
lifting capacity, psychophysical training	639
lignin, affinity for solvents	301
liquid penetration, of chemical protective clothing	21
listening, using effectively	A-692
local exhaust, inlet velocities	49
local exhaust hoods, velocity fields at	185
local exhaust inlets, facing a boundary surface	177
velocity characteristics	177
lognormal distribution, use of Student's t-test	512
lung function, aerosol dispersion test	357
detection of early changes	357

M

malathion, fluorescent tracer with	438
measure of dermal exposure	438
mandelic acid, monitoring for styrene	497
in urine	497
manganese, detmn. by flame atomic absorption	244
detmn. in whole blood	244
solvent extraction from blood	244
marine paints, lead dryers in	121
materials handling, physiologic limits for	150
problems of manual	150
MDA, see also 4,4-methylenediamine	

mercury, from dental amalgam	A-92
metabolic rate, vs. solvent absorption	546
methotrexate, air sampling for	58
detmn. of	58
methychloroform, workload vs. uptake	546
4,4-methylenediamine, also see MDA	
monitoring exposures to	531
mice, aerosol exposure systems	128
milling rubber, ventilation control for	167
millipore filter, sampling for	
ethambutol hydrochloride	620
mine dust, alpha-particle activity	566
mineral industries, amphiboles regulations	A-320
mines, wet dust collectors in	101
modelling, respirator breakthrough	325
velocity field of flanged slot hood	226
monitoring, for cyclophosphamide	314
for ethylene oxide	237
MOSV, generator for	1
multicomponent organic solvent vapors	1
MPDA, see also m-phenylenediamine	
m-phenylenediamine, also see MPDA	
monitoring exposures to	531
mucous membranes, effects of carbonless	
copy paper	117

N

negotiation, rulemaking by	A-8
neoprene lining, fire fighter's turnout gear	523
nicotine, in air of non-smoking areas	423
nitrogen dioxide, effects on asthmatics	143
noise, in printing industry	34
noise control, pneumatic hammer stripping	371
stripping paper boxes	371

O

Obituary, Barnes, Edgar C.	A-628
Castrop, Vincent J.	A-434
Irish, Don D.	A-311
Smyth, Henry F., Jr.	A-10
occupational hazards, nonindustrial	137
oil storage tanks, H ₂ S in vapor space	205
optical filters, laser protection	608
organic vapor cartridges, kinetic adsorption capacity	461
organic vapors, multicomponent generator	1
passive sampling rates	266
respirator cartridge tests	70
OSH Act, critical review of	A-146
OSHA PEL update, AIHA testimony on	A-720
OSHA regulations, for amphibole minerals	A-320
OS&H regulations, philosophy of	137
oxygen transport, measurement of	553
through perfluorocarbon liquids	553

P

PAH, see also polycyclic aromatic hydrocarbons	
PAH exposures, from road tars	600
paint removal, lead exposures from	121
paper boxes, stripping waste from	371
paraformaldehyde, bio-sterilization with	277
particle size, personal sampler for	75
particulates, from tobacco smoke	A-154
passive samplers, detmn. sampling rate of	266
pathogen aerosols, exposure system for mice	128
paving workers, exposure to PAH	600
PEL, testimony on OSHA rule	A-720
penetration tests, for chemical protective clothing	21
perfluorocarbon liquids, oxygen transport through	553
as particulate filters	553

permeation, effects of temperature	293
of gloves by EGDME	386
method of detmn.	293
of protective gloves	293
retarded by propylene carbonate	386
permeation testing, of chemical protective clothing	89
interpretation of	557
open vs. closed loop	557
system dependency	89
personal sampler, for size characterization	75
personal samplers, also see passive samplers	
PERSPEC, personal size-sampler	75
pharmaceutical industry, exposure limits in	309
pharmacokinetic models, evaluating exposure limits	213
evaluating work schedules	213
pharmacokinetics, related to biological	
exposure index	445
pharmacokinetics models, evaluating body burden	213
phase contrast microscopy, analysis for amosite	351
phenol-formaldehyde resin, coated wood particles	434
pulmonary effects of	434
phenoxy herbicides, TCDD in	466
phenylglyoxylic acid, monitoring for styrene	497
in urine	497
photometers, aerosol	396
physical properties, related to toxic effects	A-314
physiologic effects, of respirator loading	108
physiologic limits, manual materials handling	150
physiologic stress, work in fire fighter's gear	523
plastic bags, air sampling with	A-778
plastics, control of styrene vapors	6
plethysmograph, portable respiratory inductive	401
study respirator ventilatory effects	401
polar solvents, desorption from activated carbon	91
polycyclic aromatic hydrocarbons, see also PAH	
pneumatic hammer, exhaust air silencer	371
noise control	371
positive hole adjustment, for Andersen sampler	A-88
poultry processing, carbon dioxide exposures	624
ventilation for	624
pressure decay, respirator fit test	485, 492
printing industry, noise exposures in	34
professionalism, of industrial hygiene	479
propylene carbonate, reducing permeation	386
protective clothing, assessing safe use of	390
chemical screening tests	579
permeation testing of	89, 557
psychrometric limits of use	390
standard test methods	21, 23
protective eyewear, with lasers	608
protective gloves, permeation characteristics	293
psychophysical training, for max. lifting capacity	639
psychrometric limits, work in protective clothing	390
pulmonary effects, phenol-formaldehyde resin	434
pulmonary function, of carbon black workers	161
effects of zinc oxide fume	333
pulmonary ventilation, effect on solvent uptake	546

Q

quality control, for interlaboratory differences	A-695
--	-------

R

radiation hazards, to radiologists	17
radiation protection, optimization of	A-368
radioactive aerosols, control by wet scrubbers	572
radiologists, radiation hazard to	17
RDX, sampling method for	635
recirculation, air from smoking area	423
in ventilation systems	66
reentrainment, of contaminants by heat wheels	61

regulations, applicable to asbestos	A-16
philosophy for OS&H	137
setting by negotiation	A-8
residual fuel oil, hydrogen sulfide in	205
resin coated wood, pulmonary effects of	434
respirable dust, reference sampler	248
respirable mass, dust sampler	286
respirable mine dust, alpha-particle activity	566
respirator cartridges, adsorbed water vapor effect	461
adsorptivity field tests	225
detmn. of adsorptive capacity	235
effects of humidity	325
kinetic adsorption capacity	461
mixed organic vapors tests	70
modified breakthrough theory	325
service life of	325
Wheeler kinetic model	461
respirator certification, proposed changes for	A-152
respirator filters, penetration by asbestos	451
respirator fit, calculating leak rate	485
comparison of tests for	492
dynamic pressure test	485
with facial hair	199
facial measurements role	A-315
noninvasive testing of	485
review of studies	199
respirator fit testing, using ambient air aerosols	613
without chamber	613
respirator loading, physiologic effects	108
subjective tolerance to	108
respirators, comfort evaluation	280
discomfort scale for	108
evaluation of face seal	280
modelling breakthrough	325
perfluorocarbon liquid filters for	553
plethysmograph study of	401
ventilatory effects of	401
Ribavirin, exposure of health care workers	A-13
risk assessment, AMA meeting 1987	A-118
risk benefit, of radiation protection	A-368
risk communication, perceived vs. scientific	A-233
problems of	A-233
risk management, the Bhopal incident	A-698
nature of	A-698
road tars, PAH exposures from	600
rock crushing, wet dust collectors use	101
rubber milling, ventilation control for	167
rulemaking, by negotiation	A-8

S

sampler, CIP10 personal	286
size characterizing	75
sampling, also see air sampling	
sampling grid, inhalation chamber test	591
sampling methods, for RDX	635
for TNT	635
sampling rate, of passive samplers	266
sampling statistics, use of Student's t-test	512
schools, asbestos regulations in	A-16
screening test, toluene in blood	255
sensitivity function, of aerosol photometers	396
sewage treatment, hazards to workers	346
sewage workers, health status of	346
ship overhaul, lead exposures from	121
silencer, pneumatic hammer exhaust	371
size characterization, personal sampler for	75
size-selective sampler, reference calibration of	248
for respirable dust	248
skin contamination, from PAH in road tars	600
skin irritation, from carbonless copy paper	117
slot hood ventilation, for chemical drum filling	367
slot velocity, prediction by modelling	226

smoking, adjusting DEEI for	516
AIHA position statement	A-176
air quality impact	A-154
lung function changes	357
smoking area air, recirculation of	423
soil adsorption, effect on benzene exposure	506
solubility parameters, of organic solvents	301
solvent exposures, in printing plants	259
task and location factors	259
solvents, affinity for bio-systems	301
desorption from activated carbon	91
permeation of gloves	293
solvent uptake, effect of pulmonary ventilation	546
effect of workload	546
standards, updating of	137
standard setting, perspective on procedures	137
under OSHA	A-146
standard test methods, of protective clothing	21, 23
statistical test, on small sample base	512
sterilization, of biological safety cabinets	277
strength, in lifting training	639
Student's t-statistic, alternatives to	512
with small sample base	512
styrene, control by ventilation	6
workload vs. uptake	546
styrene exposures, biological monitoring for	497
sucrose, affinity for solvents	301
sulfur dioxide, bronchoconstriction from	38
interaction with copper oxide	271
sensitivity of asthmatic subjects	38
significance of exposure duration	38
sulfurhexafluoride, inhalation chamber test	591

T	
tars, PAH exposures from	600
TCDD, 2,3,7,8-tetrachlorodibenzo-p-dioxin	
exposure limit for	466
toxicology of	466
2,3,7,8-tetrachlorodibenzo-p-dioxin, see TCDD	
Tenax® filter tubes, sampling for RDX	635
sampling for TNT	635
testimony, as expert witness	A-784
on OSHA PEL update	A-720
preparation for	A-784
testing, of chemical protective clothing	21, 23
permeation of protective clothing	557
of respirator fit	485, 492
tetrachloroethylene, detmn. in breath	319
workload vs. uptake	546
tetraethylthiuram disulfide, see disulfiram	
textile mills, vibration problems in	A-775
thioethers, urinary monitoring of	10
threshold limit values, biological exposure index	445
related to pharmacokinetics	445
TNT, sampling method for	635
tobacco smoke, adjusting DEEI for	516
tobacco smoking, air quality impact	A-154
toluene, blood levels vs. exposure	255
workload vs. uptake	546
toxic effects, relation to chemicals and	
physical properties	A-314
tracers, detmn. air recirculation	66
training, psychophysical for lifting	639
tremolite, OSHA regulations	A-320
1,1,1-trichloroethane, detmn. in breath	319
triethylamine, exposure in foundries	630
2,4,6-trinitrotoluene, see TNT	

U	
uranium mines, alpha-particle activity	566
dust control in	572
urea, affinity for solvents	301
urinary lead, aminolevulinic acid test	342
urinary metabolite, from PAH exposures	600
urinary thioethers, biologic monitoring of	10

V	
vapor concentrations, calculation of	1
vapor exposures, assessing potential of	380
modelling of	380
vapor generator, multicomponent solvents	1
velocities, local exhaust inlets	49
velocity fields, calculation of	185
at exhaust inlets	185
modelling flanged slot	226
ventilating systems, estimating recirculation	66
ventilation, chemical drum filling	367
control of styrene vapors	6
hi-velocity/low-volume	177
inlet velocities	49
for poultry processing	624
slot hood	367
smoking/non-smoking areas	423
velocity fields of hoods	185
ventilation control, by air-curtain exhaust	167
for rubber milling	167
ventilatory effects, wearing respirators	401
vibration, textile machinery	A-775
virtual impinger, to modify aerosol	
photometer sensitivity	396
visual disturbance, from dimethylethylamine	630
from triethylamine	630
vocabulary, of risk communication	A-233

W	
water, legionnaires' disease in	584
water vapor, effect on respirator cartridges	461
effects on respirator cartridges	325
weaving, vibration from	A-775
web presses, noise exposures from	34
welding fume, detmn. of chromium in	207
wet dust collectors, evaluation in mines	101
wet scrubber, dust in uranium mines	572
for radioactive aerosols	572
Wheeler kinetic model, for respirator cartridges	461
witness, see also expert witness	
wood particles, phenol-formaldehyde coated	434
workers compensation, revision of laws	137
workload, vs. solvent uptake	546
work pattern, effect on exposures	259
work schedules, evaluating by	
pharmacokinetic models	213

X	
x-ray hazards, of radiologists	17
xylylene, workload vs. uptake	539

Y	
Yant Award, Trevor Jones	593

Z	
zinc oxide, exposure spikes' effects	333
pulmonary function effects	333
